

DLD UPDATE²⁰₂₅

Dear Colleagues,

It gives us great pleasure to invite you to the **11th edition of the Diffuse Lung Diseases (DLD) – 2025** Conference.

DLD 2025 is a one-day masterclass featuring five didactic talks with equal time for speakers and discussion, followed by two intensive workstations

We invite you to complete a **brief pre-conference survey here:** [Survey Link]. Your responses will help us tailor the agenda to your most pressing challenges. A **registration form** is also attached [Here].

Our distinguished faculty includes leading Indian experts in pulmonology and rheumatology, joined by global authorities in autoimmune lung disease, Professor Sonye Danoff (Johns Hopkins University) and Professor Erin Wilfong (Vanderbilt University).

The morning program will be followed by two dynamic, 90-minute interactive workstations:

Workstation 1

ILD and the Laboratory

- Immunology and Serology Lab in ILD
- The Genetics Lab in ILD
- BAL fluid analysis - Doing it well, Cell Differentials, Flowcytometry, Cell Blocks.

Workstation 2

Difficult patient conversation in ILD

Through role-play discuss conversing in 4 challenging situations:

- Asymptomatic patient with UIP pattern on CT
- CTD-ILD with PAH and now pregnant
- Refractory cough and antifibrotic drug intolerance
- Handling patient and caregiver queries during an AE-ILD

Welcome to DLD 2025 !

Warmly,

Sujeet Rajan
Course Director

Aditya Agrawal
Assistant course director
